PaedsENGAGE

ENGAGEMENT AND GP EMPOWERMENT

What is PaedsENGAGE?

Led by KK Women's and Children's Hospital (KKH) and National University Hospital (NUH), PaedsENGAGE partners General Practitioners (GPs) in the private sector in providing right-siting of care for mild and moderate paediatric conditions across Singapore. Do bring your child to see your PaedsENGAGE GP first for non-urgent conditions to assess and manage your child's condition. This will allow our team at the Children's Emergency to focus on patients with critical and life-threatening conditions.

Benefits

Quality paediatric care within reach
PaedsENGAGE GPs undergo a dedicated training programme before being certified as our partners.

Reduced fee at KKH or NUH's Children's Emergency
If your child's condition is assessed to be an emergency, the PaedsENGAGE GP will refer you to the Children's Emergency. You will receive a \$50 subsidy on the prevailing Children's Emergency fees.

Continuity of care
Our team will keep your PaedsENGAGE GP updated of your child's condition, and refer your child back to the same GP where needed.

Participating GPs/Clinics

Participating clinics can be identified by the PaedsENGAGE decal displayed at their clinic.

Scan the QR codes below or visit the following websites for a comprehensive list of PaedsENGAGE partner clinics:
