NUH CHILDREN'S FUND DONOR REPORT

(August 2023 to July 2024)

Scan this QR code or visit bit.ly/abtnuhsfund to find out more about NUHS Fund Limited!

ABOUT NUHS FUND

NUHS Fund Limited is a Company Limited by Guarantee (CLG) and a registered charity with IPC status.

The charity was set up to promote medical research and development as well as provide health related services for the benefit of the Singapore Community.

Your compassion to support patients, especially those assessed to be in financial need, will make a difference in their journey back to better health.

ABOUT NUH CHILDREN'S FUND

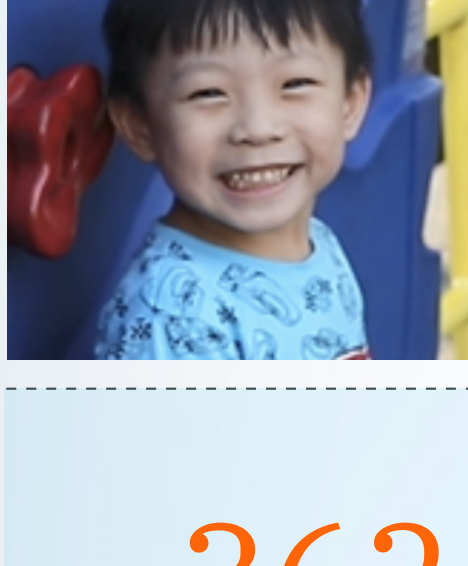

NUH Children's Fund supports children undergoing treatment at the Khoo Teck Puat – National University Children's Medical Institute (KTP-NUCMI), the paediatric arm of the National University Hospital and principal teaching facility of the Department of Paediatrics of the Yong Loo Lin School of Medicine, National University of Singapore.

The focus of KTP-NUCMI's academic, research and clinical programmes is to find better ways to assess, manage and treat paediatric conditions to enable our young patients to realise their fullest potential and achieve their best in health and in life.

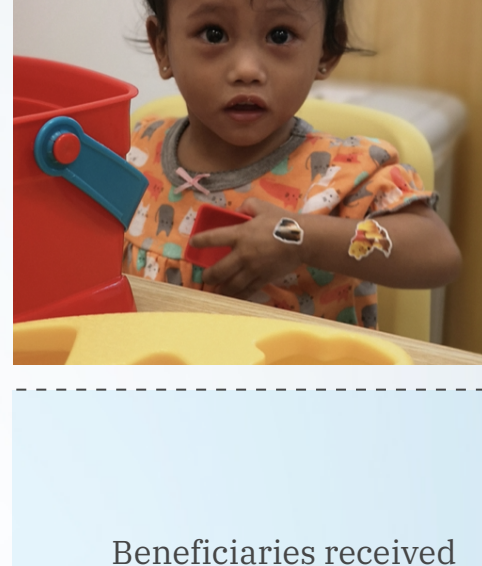

Philanthropic support provides us with the extra assistance to excel in what we do – provide the best possible outcomes for our young patients. Your support will help to change the future of these young lives in Singapore.

Your Gift Matters!

Aufa, a 14-year-old with Down Syndrome, suffers from pulmonary stenosis and regurgitation from post-tetralogy of Fallot repair, which makes it harder for his heart to pump blood effectively. His doctors recommend a new pulmonary valve procedure due to expected progressive deterioration in his right ventricular function.

"Thank you NUHS Fund, for making a difference in our lives," - Aufa's mother

The eldest of three children, Aufa attends a special needs school. His parents face significant financial burdens, including Aufa's medical bills, specialist fees for his youngest sister who has developmental delays, and dialysis treatments for both paternal grandparents. These expenses have strained the family's finances, making it challenging for them to make ends meet.

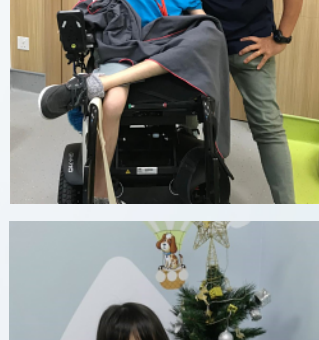

With the support from the NUHS Fund and generous donors, Aufa's family received the assistance they needed. Aufa has successfully undergone the procedure and is now on the road to recovery. He has returned to school and is gradually resuming his basketball practices. His family hopes he can continue to stay active and enjoy the activities he loves.
